

SCORING GUIDE

Score at 6mm, 9.5cm and 18.5cm on the long side of the large panel. Turn around and score at 2cm up to the edge of the largest scored piece.

1 Measure white card, 29cm x 14cm and 7cm x 11cm. Use the scoring guide to create the folds.

2 Cut off the top strip until the largest scored piece, then fold together. Attach the smaller section of white card to the front and level off the top piece.

3 Trim the patterned papers to fit the panels you have created and mount onto coloured card.

4 Finally, decorate the card with self-adhesive gems, pearls and ribbon, then add your sentiments.

Four-fold Designs

Perfect for a special event, Kitty Day's cards ooze style

Word Perfect

Create the sentiments on the computer, and play around with suitable fonts to reflect the style of the card.

Lush Looks

Add pearls and gems for an extra special luxurious touch.

Top Class

Mount your papers onto matching card for a more professional finish and use a bone folder to create crisp score lines.

Signed Copy

Attach a white rectangle of paper onto the back panel to display a personalised message.

Stick With It

Use a strong glue like Nuvo Deluxe Adhesive to attach the front panel.

How-To

Pretty Prints

For this card I decided to use a different colourway. The focal on the front panel is created by taking advantage of the repeat floral patterns in the peach paper pad. To finish off the design I've added some printed sentiments on the front of the greeting and also inside.

Big Blooms

The shabby chic style of the Wonderful Roses collection is ideal for a wedding with a vintage theme. Co-ordinated designs make it easy to create stylish stationery and cards. Simply attach self-adhesive pearls or ribbon to finish.
