# **BOOST YOUR Craft Skills**

Make Colette Smith's frosty snowman for a simple last-minute card this Christmas

## Inside this month...

**Next Level Shaker Cards** 

On test **Cardmaking Kits** 

On test **DIY Wreaths** 

### We Used...

- \* Cardstock, assorted colours
- \* Dies: Sizzix **Snowman Scene** by Tim Holtz (662422); ovals
- \* Gel pen, white
- \* Die-cut sentiment
- \* Star gem
- \* Adhesives

### **TIPS**

Give the card an even more modern feel by using non-Christmas/ winter shades such as pinks, purple or even lime green.

Add a piece of acetate behind the aperture, line with foam tape, fill with sparkles and then back with the background to make a fun shaker card.

1 Take three ovals. 7.5cm x 11cm. With the mountain die. cut the mid teal oval, then the tree hill from white.

2 Create the snowman elements as shown and the moon pieces from white. Assemble the snowman and moon.

**3** Attach the background centrally on the card blank. Trim a pale teal panel and die-cut an oval from the top.

4 Add the decorative elements. Attach the aperture panel with foam tape and position the snowman. (B
